

PART No.
FCA2 (To mount 2 housing)
2 Way Fixed Camera Adaptor

Product:

The CTE 2 way fixed camera adaptor FCA2 is used as a bolt on adaptor for all our pole and tower range. The bracket bolts to the top of our pole / tower range using four No. M6 tapped holes fitted with 25mm long A2 stainless set screws provided on our pole / tower before despatch. The swivel mounts are fully adjustable to obtain the perfect camera position. The swivel mounts to rotates through 360° and tilts to front / rear approx 90° either way. The product is supplied in a fully galvanised finish for maximum weather resistance and low maintenance.

Basic Dimensions:

Bracket arm section 50 x 30 x 3mm RHS. Total camera arm length 700mm (camera arms equally spaced 350mm either side of pole). Standard 101.6 PCD base for mounting to CTE poles / towers. Top mounting plate consists of a series of holes for 101.6 PCD fixed housings (other popular manufacturers footprints are included). All camera arm ends are capped off with plastic bungs for weather protection.
